Sub: Request for the procurement of Equipment required for the Dept. of Zoology, South Campus,
Bhiknoor- Reg;

I would like to bring it your kind notice that, for the conduct of M. Sc Zoology practicals requires the Compound and Dissection Microscopes for the observation of permanent slides and specimen slides prepared for the observation. Most of the experiments requires preparation of reagents, buffers and solutions which require distilled water supply. Hence the Zoology Laboratory requires a distillation unit to be installed to meet the continuous supply of double distilled water. As the M. Sc Zoology course was introduced in Jan,2023,the department need to be strengthened by the addition equipment in the labs. Hence, I request you to accord the permission for the procurement of equipment required. The list of equipment required is enclosed along with the quantity details.

I hope your kind office will do the needful.

Thanking you,
